

MANDATORY

MED4 ALL

Everyone is covered. No insurance middleman.

Medical benefits not tied to employment

Mandatory tax for public healthcare.

No co-pays or out-of-pocket fees for services. No deductibles.

Health facilities, equipment, and interest on loans to purchase these assets funded by a progressive tax on income.

Ordinary and catastrophic care subsidized by those who pay into the system but don't use it.

Private insurance eliminated or regulated.

Non-profit healthcare facilities virtually non-existent.

Regulated by the government, may include mandated procedures and treatments decided by technocrats or politicians.

Voluntary
**Health
4 ALL**

Everyone is covered. No insurance middleman.

Medical benefits not tied to employment

Choice to pay for private healthcare, public or non-profit healthcare.

Modest, sliding-scale fees for services up to a deductible amount that is about what the patient would pay annually for a Med4All plan.

Health facilities and equipment funded directly by the US Treasury, creating public assets that add wealth to the economy. New money created for public facilities should replace the Federal Reserve debt-based currency system and taxation.

Catastrophic care funded by State sales tax on products that damage public health.

Private insurance industry allowed to offer any policy anywhere in the country. No restrictions or regulations.

Tax deductions for donations to non-profit healthcare facilities increased to 100%.

Regulated by medical professionals and patients. No mandatory medical treatments or vaccines.
